**SPRING
UROLOGICAL
SYMPOSIUM**

Learning
from the past
Planning for the Future

Dear Colleagues,

On behalf of the board of directors of Cyprus Urological Association (CAU) and members of the Organizing we are pleased to announce the 3rd Spring Urological Symposium, which is being held in April, 12-14 2019, in Limassol, a very modern city which will again serve as a spring-board to strongly advance the CAU initiative for world-wide advancement of Urology in both scientific and clinical aspects, thus “**Defining the Future of Urology**”.

Since its foundation in 1993, CAU has sought to associate and affiliate into one organization all Urologists, physicians and scientists who are engaged in, or interested in, the techniques for Urology surgery, and modern Urological investigations approaches. Our vision is to provide comfortable care everywhere through education, research and knowledge together in a flexible, innovative and open Society.

As in previous years, the focus of the scientific programme will be on state of the art presentations in our field as well as new insights into basic science, clinical research and therapeutic interventions. You can participate in very active discussions and cutting-edge lectures by the invited world’s top scientists and Urologists as hear all the advances of scientific and clinical Urology.

CAU 2019 will also give us the time and opportunities for networking. While enjoying our outstanding scientific programme, CAU’s Symposium is the place to network with your peers, meet old friends and make new ones.

We very much expect you to enjoy this exciting Urological Symposium set in Limassol!

*Dr. Stavros Charalampous MD, PhD, FEBU
CAU President*

*Dr. Zafiro Roditou-Kyriazi MD
CAU Gen. Secretary*
